

11-9  
MAR 08 1984

Mr. Ron Enos  
President, Advanced Circuitry Division  
Litton Industries, Inc.  
P.O. Box 2847  
Springfield, Missouri 65803

EPA I.D. NO.: MOD007152903

FACILITY LOCATION:  
4811 W. Kearney  
Springfield, Missouri

Dear Mr. Enos:

This is to acknowledge that the Environmental Protection Agency (EPA) hereby denies a Resource Conservation and Recovery Act (RCRA) hazardous waste permit and terminates interim status for Advanced Circuitry Division, Litton Industries, Inc., of Springfield, Missouri, in accordance with Section 3005 of RCRA.

The facility may continue to generate hazardous wastes, but it may not function as a treat/store/dispose (TSD) facility unless a Part A and Part B hazardous waste permit application are submitted to the permitting agency and a permit is issued. The facility must continue to comply with 40 Code of Federal Regulations (CFR) Parts 262 and 270 as a generator of hazardous wastes.

If you have any questions regarding this notice, please contact Joe Galbraith of my staff at (816) 374-6531.

Sincerely yours,

David A. Wagoner  
Director, Air and Waste Management Division

Denial of RCRA Permit

Robert L. Morby, Chief, ARWM/WMBR

David A. Wagoner, Director, ARWM

Attached is the letter to deny a RCRA permit and terminate interim status for Advanced Circuitry Division, Litton Industries, of Springfield, Missouri. The notice was published in the Springfield Leader and Press on December 15, 1983, and was broadcast on radio station KLSM on December 15 and 17, 1983. The period for public comment ended on January 31, 1984. No comments were received.

We recommend that you sign the enclosed letter to deny a RCRA permit and terminate interim status.
